

BOSCH SECURITY ACADEMY Registration

PARTICIPANT HANDBOOK TO BOOK
THE COURSES

How to register to BOSCH Security Academy

BOSCH Academy Basics

Training Options

Web Based Training (WBT)

Our WBTs are online courses where you can complete at your own speed, when & wherever you want.

These are the basics for the other type of the courses, and are necessary to be completed before the classroom sessions.

Each WBT ends with a test. The participant should pass it and get the right result to open up the other courses.

Classroom Classes (F2F)

The classroom sessions are run at one of our BT facilities present in the region, and otherwise private courses can be arranged as well at one of our partner's.

Dates and locations of the seminars are published on our website.

After every classroom class, an exam is opened, that shall be passed. Once you get the score you can generate automatically your certificates.

Virtual Classrooms (Webinars)

These live trainings are great opportunities if learning a specific topic is needed.

The trainer contacts the participants within 1-2 business days.

What you need is a computer connected to a reliable internet, and a headset or a computer speakers.

BOSCH Academy Basics

Learning Paths : Professional -> Expert -> Master

Students' progress is shown through three successive paths. The successive levels help the participants to keep track of the courses that have been already taken, and allows to strengthen the level of expertise in the Bosch products.

Technical Professional
Level

All begins with giving general knowledge on different topics of Bosch Security and Safety Systems.

All WBT, PROFESSIONAL level showcases basic product features and systems' architecture.

Technical Expert
Level

Deeper insights are within the EXPERT level, to enable the student to learn more on design / configuration for lower to moderately complex systems.

Technical Master
Level

Achieving full technical expertise goes by passing the MASTER level.

Courses mainly classrooms based, trains participants on advanced system configuration, integrated systems, and troubleshooting.

Always pay attention to the details in Red.

BOSCH Academy Basics

Technical Competency Certificates

The participants are investing time and effort to qualify themselves, and believe that your customers and partners should know about it. Once you - the participant - go through a learning path and pass the exam, a corresponding Bosch training certification will be automatically generated in the system, in your account, and sent to your e-mail.

The certificate can be downloaded and printed if needed, and it's valid for 2 years.

A Certificate of Achievement, looks like this :
